A Word to Republicans.

The hope of the party lies in the expansion of a substantial Republican press. The Republican who reads or otherwise helps to support a Democratic paper to the exclusion of one of his own party newspapers is untrue to the Republican cause.

Unanimously subscribed to by the National Republican League.

J. R. CLARKSON, President.  
A. H. HUMPHREY, Secretary.

THE LEDGER... is the largest daily paper printed in Maysville—east the columns delivered by carrier or sent by mail.

It gives you more reading matter than any other. It is sold at the same price as any other Maysville paper—one cent a copy or 10 cents a month delivered by carrier or sent by mail.

If you are looking for the most for your money, you can get it in THE LEDGER.

When people find an article much superior to anything of the kind they have ever before used, they are almost sure to tell their friends about it, and especially if they know of some friends needing such an article. Dealers also learn the true value of their goods, and when they have an article of unusual merit they will almost invariably mention the fact to their customers. This accounts in a great measure for the large sale on Chamberlain's Cough Remedy. Here is an instance: W. L. Needham, a prominent citizen and business man of Oremburg, Mo., has been selling Chamberlain's Cough Remedy for several years and recommends it to his customers, because in his experience it has proven to be the best for colds, cough and whooping-cough. He says it is the most popular medicine that he handles, and gives the best satisfaction. Fifty cent bottles for sale by Power & Reynolds, druggists.

EMERSON PIANOS! 60,000 SOLD.

These instruments have enjoyed a high reputation for more than forty years. They are brilliant and musical in tone, and afford a most beautiful accompaniment to vocal efforts. They are also of great sympathetic quality which blends admirably with the human voice.

They are durable, being constructed of the best materials by the most skillful workmen. They have earned an especial reputation for their original fullness of tone—never growing thin or weary with age. The Company, through their agents, have received several first prizes during the past few years, and their instruments have invariably taken high rank wherever exhibited. Prices Moderate. Terms Easy.

# QUEENSLAND.

A Good Portion of That Country Covered With Water.

Many People Drowned in Different Localities So Far Heard From.

Villages Almost Completely Deserted by the Inhabitants—The Floods Came So Suddenly That Much Merchandise Was Lost—Water Nearly Killing.

**SYDNEY, Feb. 7.**—The number of people drowned by the floods in Queensland is very large. In Ipswich, twenty-five miles from Brisbane, twenty-two are known to have perished, and it is feared that the loss of life is much greater, as the swollen river is filled with wreckage from a horrible stretch of miles, doubtless caused by the dead bodies of human beings and animals entangled in it.

**BRISBANE, Feb. 7.**—The water is steadily rising in this city. The lower districts are completely submerged. In the lower portions of the main street it is twenty feet deep. The shops and their contents are almost a total loss, as the flood came on so rapidly that only a small part of the stock could be removed. Men are at work in boats trying to save the contents of the third-story storerooms before the water rises to them. The Brisbane river bridge, connecting North and South Brisbane, was swept away Sunday night. All the inhabitants are crowding to the highlands part of the city. In consequence of the interruption of railway and telegraphic communication only scanty information about the disasters in other parts of Queensland is obtained.

At Marlborough, in March county, thirty persons have been drowned. Most of the town is under water. The Marl river bridge, the largest one in the colony, has been washed away. The town has been deserted by two-thirds of the inhabitants. Tiaro, another town on the Murrumbidgee, is also under water.

## JUDGE JACKSON.

Much Gratified Over His Appointment—New Congratulations.

**CINCINNATI, Feb. 7.**—Judge Howell E. Jackson took his accustomed seat on the bench of the U. S. court of appeals at the opening of the adjourned session Monday morning. He will sit through the session and take part in the decision of the cases, just as he would have done had the appointment to the vacant seat on the U. S. supreme bench not been tendered to him. Assuming that he will be confirmed.

# TWO EVILS.

Secretary Prolet Is Against Proliferous Kissing—The Common Communion Disease—Prevalent.

Col. Thompson, Feb. 7.—Secretary Prolet, of the state board of health, appeared before the city Pastors Union Monday to urge two sanitary reforms, which he said, clergyman could do more to help along than anything else.

One was the abolishment of the custom of kissing, and the other abolishment of the use of one in communion services for hundreds to drink out of. He called almost universal custom among women, friends to kiss on meeting, and to kiss babies.

Pastors were, he said, expected to kiss babies of parishioners. This from mouth-to-mouth method of transmitting disease germs was most common and certain. He cited many cases in support of this proposition that it is extremely dangerous to kiss promiscuously.

What he called attention to was the custom of passing the communion cup from hand to hand. The pastor wanted him to suggest some way by which these dangers in communion could be averted.

He said in general, but the recommendation that each communicant have his own cup was the only one acceptable. At the close a resolution thanking the doctor for his address, and stating that the recommendation would be followed, was adopted.

## PANAMA MONEY.

Which Came to the United States For Use, Was Highly Used, Says Col. Thompson.

**NEW YORK, Feb. 7.**—A special to the World from Terre Haute, Ind., says: Col. Richard W. Thompson, late chairman of the American Panama Canal Co., was seen in regard to the statement in a cablegram from Paris that about 12,000,000 francs were sent to New York and expended under his direction and that this amount had not been accounted for.

Col. Thompson said: "The impression that a certain sum was placed in the hands of the canal company, or any other sum, is incorrect. Just the New York bankers, had with the Canal Co., don't know; but I do know that all our regulations on the Canal Co., through Seligman & Co., were honored and promptly complied with. No money was issued that will not bear the most critical inspection."

Col. Thompson added: "So far as my spending 12,000,000 francs in this country for the canal is concerned, there were four members of the American committee, and I was one of them. What we were doing was to get the vouchers in the bank will show how every cent was spent. We expect to make a showing of the expenditure of the committee that will explain all the transactions in detail."

## HOME RULE.

Provisions of Gladstone's Measure Introduced in the House of Commons.

**NEW YORK, Feb. 7.**—A London dispatch says: The home rule bill, which Mr. Gladstone introduced Monday afternoon, proposes an Irish legislature consisting of members elected by county and members chosen by general suffrage. The two orders will sit and vote together. The measure provides for complete autonomy for Ireland, and the ascendancy of the imperial parliament is fully maintained, but will have the right to vote upon the powers of the Irish parliament, such a way as to nullify the actions of the latter.

The Irish parliament will be given control over the police and judiciary, and ultimately over the questions relating to land. The suffrage system is to be overhauled through the entire United Kingdom, and this will have the effect in Ireland of nearly doubling the roll of those entitled to vote. The bill provides that the imperial parliament shall have control over the question for ten years, while Messrs. Sexton, Dillon and McCarthy think that three years would be sufficient.

On the whole the measure is likely to give general satisfaction to the home-rule element.

## NEW COAL COMBINE.

One Hundred Mines in Western Pennsylvania.

**PITTSBURGH, Pa., Feb. 7.**—The Hooking valley combine is to be outdone. The owners of 100 coal mines in Western Pa. yesterday agreed to form a pool to be known as the Western Pennsylvania Coal Co., with a capital of \$15,000,000. Seventy-five operators, including men from Cleveland, Youngstown, Detroit and Chicago, have attended three meetings at 281 Wood street, this city, and another has been called. A committee of seventeen operators is to be appointed to get it all in line, although the plans are almost complete. The company will have uniform prices for coal. The prices for digging now vary as much as four cents a ton. These companies ship 1,500,000 tons of coal annually.

**Smallpox Still Spreading.** Columbus, O., Feb. 7.—Smallpox is still on the increase at Akron and has even spread to a settlement five miles away. Five new cases were reported to the office of the state board of health Monday. The most stringent precautions to prevent a spread of the disease have been adopted, notwithstanding which new victims appear.

**Immense Elevator at St. Louis.** St. Louis, Feb. 7.—E. H. Peavy, of Minneapolis, Minn., has secured a piece of land on the east side of this city on which he proposes to erect a storage elevator with a capacity of 1,000,000 bushels and a storage elevator for drying elevator of 250,000 bushels capacity. St. Louis parties are interested in the enterprise.

**Common Carriers Bill.** Washington, Feb. 7.—In the senate Saturday the house bill relating to contracts of common carriers, and other obligations, duties and rights in connection with the carriage of property was passed with many amendments, and a conference was held.

# BA. OUTLOOK.

Greatest Railway Strike of the Age Threatened.

The Aim of Its Promoters, It is Said, Is a General Uprising.

Of Unorganized Workmen—Every Kind of Support, However, Will Be Welcomed—A Great Effort Was Made to Keep the Movement a Strict Secret.

**CHICAGO, Feb. 7.**—A morning paper Monday contained the following: "Dark shadows of an impending strike are hovering like nightmares over many if not all the railroad lines entering Chicago. On authority from several reliable sources it seems more probable that within ten days a herculean attempt will be made to tie up the locomotive and car in the city and paralyze the trade on many thousands of miles of track."

"So apprehensive have the officials of one of the eastern trunk lines become that it is already reported that they are refusing east-bound traffic from western lines. Starting with the unorganized workmen, the strike is spreading until it is claimed the various branches of unorganized employees will unite in one of the most determined strikes in the railroad history."

The switchmen of Chicago have decided to demand an advance of five cents per hour in their present pay, and to strike if it is not granted. This important action was taken Sunday at a meeting of committees representing the seven railroad yards in this city. The new demand thirty and thirty-five cents per hour respectively for day laborers and foremen and thirty-five cents per hour for the yard men for help and foremen working at night.

The demand will be made upon the seven yards serving here as soon as petitions can be circulated among the men in the respective yards and a majority of the signatures secured.

The new feature of the movement is that the regular organizations of the switchmen are entirely ignored in the new move and that it is a sort of general strike on the part of the men, irrespective of the old organizations.

One of the men who are prominent in the move says: "It is not a new thing by any means, but it is very careful that our aims and object should not become generally known. We are not trying to create a strike since the failure of the Buffalo strike. After that affair the men got to talking among themselves that their organizations were the future of the industry. The strike proved to be a failure through misunderstandings and mistakes of the head men of our organization. It has become general talk among the men that the only way by which railroad men could ever improve their condition would be by a popular uprising. We considered to make an effort on our own account without the guidance or assistance of the regular organizations. It is our aim to say that individual members of the unions will not support us; on the contrary, they will help us, but they will not go out of it when ordered to do so by the officials of the unions. In other words, if it becomes necessary to strike, it will not be done by the order of the union officials, nor will their mandate be effective in determining the strike."

"The rank and file of the men are heartily sick of the way strikes have been made, and they propose to try to lead at the problem in a more drastic way in the future. We have had a little too much union in one direction and not enough in the other. There is no lack of officials drawing salaries, while a great majority of the men engaged in the various lines are kept out of the money because of the way the railroads and fines imposed by these well-paid officials. The men to a man agree that the wages of railroad men generally are low, and they express a willingness to go into a popular movement to secure the same and never give up until they secure it."

The greatest efforts have been made to keep the whole movement a secret, and in this the men have to a great extent succeeded. The strike has few leaks leaked out, and these gave rise to all sorts of rumors, but really Sunday's meeting nothing really of the move.

Telegrams from points along the line of the Pennsylvania railroad indicate that that company expects trouble at an early date over the question of wages, as they have refused previously freight at any points outside of Philadelphia and the Pittsburgh, Ft. Wayne Chicago railroad officials have been developed to receive such freight on the road with the exception of the double on the road with their engineers.

**Senator Rye's Generosity.** New York, Jan. 7.—The World's special from Massillon, O., says: "It is told here on confidential authority that Senator Calvin S. Rye has leased the Metropolitan hotel in Washington, and that he will entertain there during the winter of 1900-1901 the delegates to the national convention of the Buckeye state who call upon him and establishes the fact that he is an Ohioan, regardless of his politics, religion or previous condition of servitude."

**Butter and Cheese Convention.** DEBUIQUE, Ia., Feb. 7.—The second annual convention of the National Butter and Cheese Makers' association opens here Tuesday and will continue four days. Over 5,000 delegates are expected, and a number of better equipped machinery will compete for \$4,500 in premiums.

**Killed in a Snow Slide.** TELLER, Colo., Feb. 7.—Rocky Mountain Rail, better known as "Rocky Mountain Rail," and Jack van Scoy were killed in a snow slide at the Embury, near Telluride, Colo., Feb. 7, on which the two men were working.

# CONFERENCE.

On Hawaii Held at the White House—The Hawaiian Treaty of 1894.

WASHINGTON, Feb. 7.—Preliminary to the conference Tuesday between the secretaries of state and the Hawaiian annexation commissioners, conferences were held Monday at the white house between the president, Secretaries John W. Foster and Tracy and Attorney General Miller. Mr. Foster had a talk with the president in the morning, and in the afternoon they were

again in conference with Secretary Tracy, and Mr. Miller also present. What was accomplished at these conferences cannot be ascertained, but their frequency in relation thereto indicates that the grounds for the belief that the government will have some definite information to impart to the commissioners at Tuesday's session bearing on the policy of the United States regarding the annexation question.

The secretary of state said Monday that no arrangements had been made for the reception of the Hawaiians by the president.

The president Monday afternoon in response to the resolution of Senator Morgan adopted last Friday transmitted to the senate copies of the annexation treaty and the Hawaiian representatives of the United States and King Kamehameha III. In 1894, together with the correspondence between the Hawaiian government and the United States. The correspondence includes a letter of instructions from Secretary of State W. L. Marcy to David L. Gregg, United States minister to Hawaii, Minister Gregg's report to the state department narrating the circumstances of the negotiation of the treaty and the condition of affairs in the Hawaiian islands at the time the minister's report of the death of King Kamehameha and the accession of his son, King Kalakoua, were received.

# NATURAL GAS.

One of the Possibilities of This Subtle Fluid.

A Whole Family at Lima, O., Overcome By It.

A Defective Pipe in the Building Laid and Discovered Resulted in the Timely Arrival of a Relative From Lima From Death.

**LIMA, O., Feb. 7.**—An entire family was asphyxiated Monday by gas. Chas. J. Mohr resides with his family, which comprises a wife and one child, at 623 South Tanner street. For several days the family have felt very stupid and drowsy. Their appetites were gone, but they did not know what ailed them. Sunday evening Mrs. Mohr got supper as usual, but the meal remained untouched. The family retired, but the night earlier than usual, feeling very bad. Monday morning, after breakfast had been prepared, Mohr got up, but was unable to get out of bed. He felt anything, lay down on the lounge. He fell to sleep again.

The son was also sick and went to sleep while Mrs. Mohr, who also felt drowsy, concluded to lie down, and they were all insensible from the effects of gas. Monday afternoon the sister of Mrs. Mohr called at the house and entered the kitchen, which she found filled with gas and the entire family senseless and lying on the floor. After trying to arouse them without success, several of the neighbors were called in and Dr. E. G. Gule sent for. Mrs. Mohr was lying in bed unconscious and Mr. Mohr and son on a lounge were also in an unconscious condition. The room was so suffocated with gas that all the windows had to be thrown open before the work of resuscitation could go on.

After some time Mohr and his son brought themselves enough to realize what was going on, but Mrs. Mohr was so near death that it was several hours before she opened her eyes. She is still in a very precarious condition, and the entire family very ill from the effects of the gas, which came from a defective natural gas connection.

**Fatal Wreck on the Baltimore and Ohio.** PITTSBURGH, Pa., Feb. 7.—A disastrous wreck occurred at Williams station, near the mouth of the Cumber-land, on the Baltimore and Ohio railroad. Two men are under the wreck and are no doubt dead, another is fatally injured and several others badly hurt. The accident occurred at the foot of the mountain and was caused by a falling train, which rendered the train unmanageable, as the foot of the mountain it crashed into another freight and both trains were wrecked. The bodies of the men are still in the ruins. Twenty-four cars were demolished.

**West Virginia Legislature.** CHARLESTON, W. Va., Feb. 7.—The bicentennial of the eighteenth law. The bills to prohibit railroads from charging more than three cents per mile for passenger travel, and prohibit the use of railroad passes to public officers, were both killed in committee. A bill was introduced requiring the governor and secretary of state to pay into the treasury all fees received by them, except such an amount as will pay each \$3,000 annually. The salary fixed by the constitution. At present these offices are supposed to be worth about \$10,000 per year each.

**Three Dead Indians.** WASHINGTON, Feb. 7.—Secretary Noble has received a telegram from Inspector Clancy, at Pine Ridge, S. D., in which he says that the police have killed three of the worst of the so-called murderers and report having killed, about sixteen miles from the agency, three Indians who participated in the massacre of the outbreak of the Indians or further trouble is anticipated.

**The Twin Babies Were Frozen.** KANSAS CITY, Mo., Feb. 7.—The house of Martin Locker was entered Sunday night and the mother of the twins and his wife robbed the house. In leaving the place the burglar left the outside door open, and when the mother and wife returned they found their two babies, twins only five days old, had been frozen to death.

**A Mad Dog in Chicago.** CHICAGO, Feb. 7.—A mad dog ran amuck through the heart of the city shortly after midnight, and before it was finally brought to bay and shot by the police it had bitten two persons, W. Lawler and Lizzie Russell, and at least three others, whose names could not be learned.

**The Governor May Not See It.** COLUMBIA, O., Feb. 7.—Gov. McKinley said Monday morning that no copies of the report circulating of the labor organizations' agitation for a state militia had been sent to him or had come to his notice in any way.

**It Was the Dog.** MILLERSBURG, O., Feb. 7.—A pup in the home of J. C. Fisher pulled a table cloth off and upset a lamp when no one was at home. A lucky discovery of the flames saved the building.

**First Blood for Free Services.** WASHINGTON, Feb. 7.—In the senate Monday Senator Hill moved to take up the Sherman silver purchasing act. The motion was defeated by a vote of 44 yeas, 42 nays.

**The Death Cave In.** INDIANAPOLIS, Ind., Feb. 7.—A strip of ground by 75 ft. deep, the shallow shaft of the Cleveland Iron Co.'s mine, dropped 75 feet early Sunday morning. It is feared five men are entombed, as that number was missing.
